### TRANSPORTATION – UNITED STATES SMALL PACKAGE ROUTING

Single day shipments up to 400 lbs. are to be shipped **FedEx Ground Collect**. Each carton must be labeled with FedEx Ground Collect barcodes. If you already have a FedEx ground account and use a FedEx software or hardware system, you may print the label with your existing system. Furthermore, you may log on to www.fedex.com and process the shipment using the collect option in the Bill Transportation Charges section of the preparing a shipment on-line feature. If you are already set up to ship FedEx Ground Collect and have the collect barcode labels, you may use the same set of collect barcodes to ship to any PVH location. If you do not have an account or need to order more labels, please call 1-800- GO-FED-EX or email supplyhelp@mail.fedex.com and reference the PVH routing guide. They will provide further assistance. **DO NOT INSURE FEDEX GROUND SHIPMENTS!**

- Does not measure greater than 60 inches along its longest side.
- Does not measure greater than 30 inches along its second-longest side.
- The length plus girth does not exceed 130: (length plus girth is calculated by taking the length of the carton and adding twice the height and twice the width).

### Destination PVH Warehouse

- When shipping to a PVH warehouse via FedEx Ground, the vendor is to create an address label for each carton. It should include the name, address, city, state and zip code of the destination. It may be placed on the top of the carton.
- Each carton should also have the PVH supplied or vendor created outer carton label. Placement of the label is explained in the Carton Labeling Chapter of the Supplier Manual.
